

IMPORTANT SAFETY NOTICE PLEASE READ AND TAKE ACTION!

UPDATED ASSEMBLY INSTRUCTIONS

The illustration for Step 9 on Page 7 of the Assembly Instructions shows the addition of a bracket (Part J) to the side of the oven and the oven door with four (4) screws (Part H). When assembling the oven, **DO NOT INSTALL THE BRACKET (PART J) TO THE OVEN**. Instead, dispose of the bracket and the four screws. The oven door will function properly without the addition of the bracket, and the product will have greater stability and negate the possibility for accidental tipping. It is important that you follow these updated assembly instructions. If you have any further questions, please contact 1-800-659-7026.
